The Season of Creation Sept 1st - Oct 14th

"We scientists don't know how to do that" "I used to think the top environmental problems were biodiversity loss, ecosystem collapse and climate change. I thought that with 30 years of good science we could address those problems. But I was wrong. The top environmental problems are selfishness, greed and apathy.... and to deal with those we need a spiritual and cultural transformation - and we scientists don't know how to do that" Gus Speth.
